

# Max Leaves Tracks

Julie and Max are having fun swimming in the ocean. Max rides a big wave west onto the sand. At the very same time a seagull lands on the sand. The seagull and Max wander off to explore. All Julie sees are tracks in the wet sand. Can the tracks help Julie find Max?

## Use Map Routes

Max's tracks in the wet sand show his route. A **route** is a way of going from one place to another. Maps use lines or picture symbols to show routes. Find the symbol for Max's route in the map key. Then find where Max's route starts on the map. Follow his route.

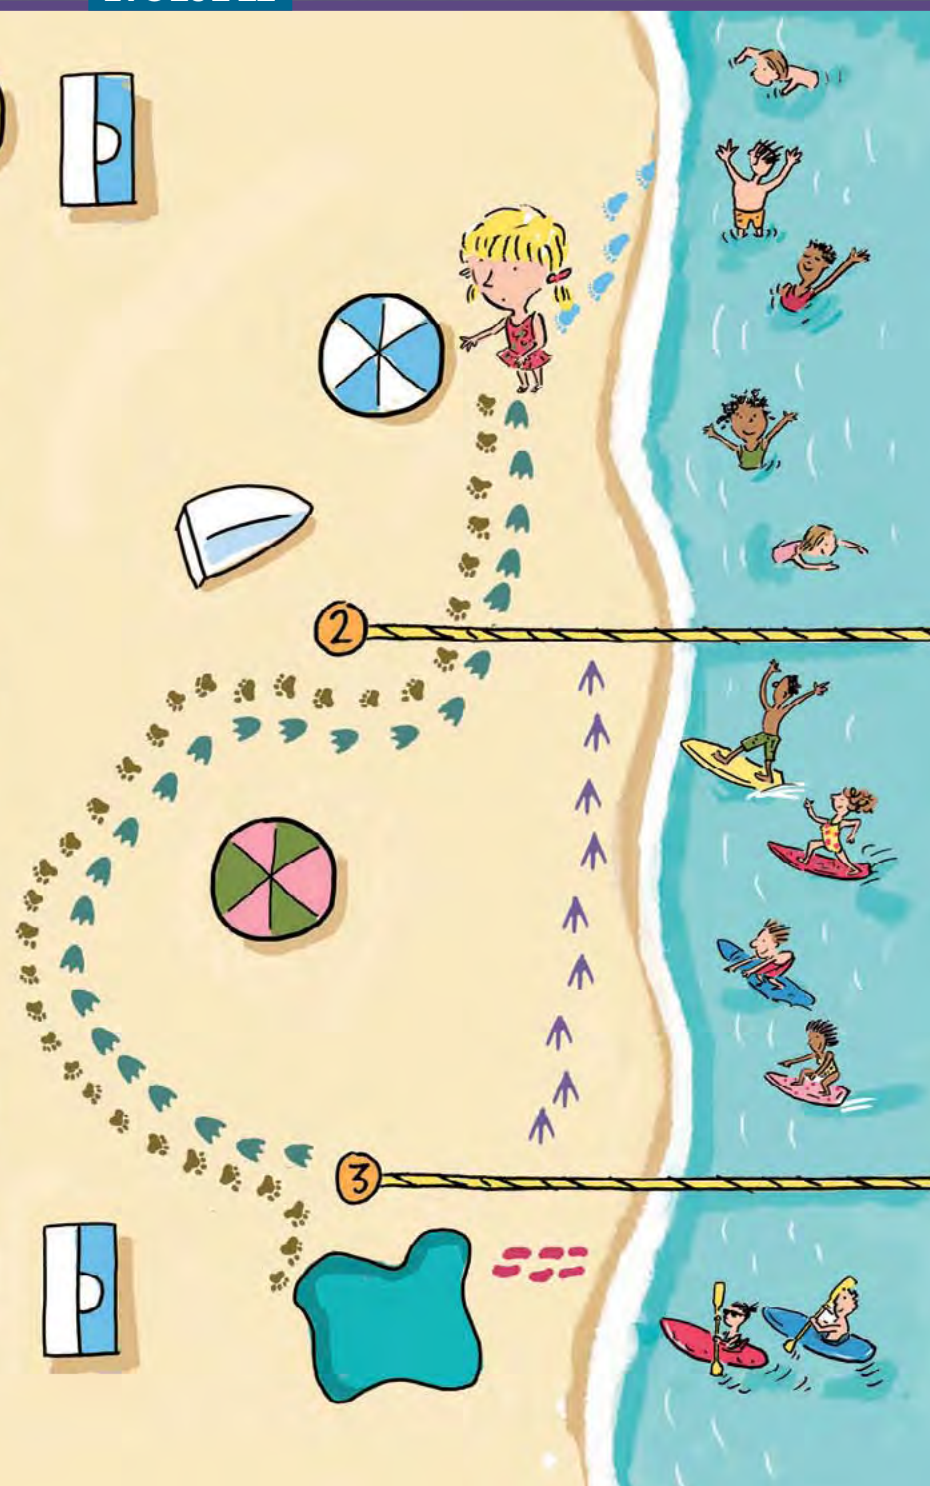

Beach Routes

MAP KEY

- Crab route
- Julie's route
- Lifeguard boat
- Lifeguard stand
- Max's family umbrella
- Max's route
- Ocean
- Ocean ropes
- Sandpiper's route
- Seagull's route
- Tide pool
- Umbrella

WEST

EAST

YOUR TURN

- Where does Max's route end? Is that north or south of where he started?
- Follow the seagull's route. Is its route east or west of Max's route?
- Follow the route of the crab. Is it walking east to west or north to south?

What is Max up to now?
